Dear Certification Candidate,

Welcome to the National Firefighter Certification Program!

The Kansas Fire & Rescue Training Institute is accredited by the International Fire Service Accreditation Congress (IFSAC) and by the National Board on Fire Service Professional Qualifications (NBFSPQ - also known as “Pro Board”). These accreditation agencies establish rules and standards to follow in the administration, recordkeeping, and providing of National Certification for the fire service. Through this accreditation, Kansas Fire & Rescue Training Institute is authorized to issue accredited National Certifications to individuals meeting the requirements of selected national standards.

Kansas Fire & Rescue Training Institute’s role in the process is to maintain testing materials and a fair system of administering certification exams.

This National Certification Preparation Guide was specifically designed to help you prepare for the examination process ahead. This guide gives reading references for the written exam and the skills exam. By using this guide, you will be looking at the same pages the test writer was looking at when they wrote the test questions and developed the skills evaluation sheets.

Our Coordinators and Evaluators are here to observe your skills and knowledge – they will not help you pass the test.

Our staff and evaluators will treat you with respect and professionalism. Our goal is that you complete the testing process with satisfactory performance and earn your National Certification.

Good luck,

KFRTI Staff

National Certification

National Certification is a professional credential that verifies your proficiency in the level to which you were/are certified. Kansas certifications do not expire. If you are moving to another state, you should contact the certification entity in that state to find out if your National Certification from Kansas is recognized in that state.

Certification Program Mission

This mission of the National Certification Program is to maintain an accredited system for Kansas fire service members to earn National Fire Service Certification professional credentials.

Certification Program Values and Principles

In the conduct of this program, the Kansas Fire & Rescue Training Institute uses the values listed below to guide our professional conduct; they form the foundations and parameters of this program.

- ✘ We hold in high regard honesty and integrity in ourselves and those we serve.
- ✘ Kindness and professionalism guide our instructors and our evaluators.
- ✘ We respect the fire and emergency service and those who serve in it.
- ✘ Transparency of our system, processes, and policies is paramount.
- ✘ The certification standards drive fair evaluation and testing.
- ✘ We value our role as the provider and protector of the national certification program's credibility.

Academic Integrity

We hold staff (including part-time) and certification candidates to identical ethical standards. We expect professional behavior at all times. Any incident of academic misconduct by a candidate, will invalidate their test results, forfeit their certification fee, and may subject them to suspension from the certification process for one year.

Academic misconduct includes cheating, plagiarism, falsification of records, unauthorized possession of examinations, intimidation, and/or other actions that may improperly affect the evaluation of a candidate or assisting others in any such act.

Our policy on academic misconduct is that of "zero tolerance."

The University of Kansas prohibits discrimination. Specifically, the University of Kansas prohibits discrimination on the basis of race, color, ethnicity, religion, sex, national origin, age, ancestry, disability, status as a veteran, sexual orientation, marital status, parental status, gender identity, gender expression, and genetic information in the University's programs and activities. Retaliation is also prohibited by University policy.

How to Use the Certification Preparation Guide

This National Certification Preparation Guide is specifically designed to help you prepare for the examination process ahead. This guide provides reading references for the written exam and the skills exam.

We have included information in this guide that will help you achieve the professional credential that is Fire Service National Certification. There are a few key elements in preparing for the National Certification Exam. They are: 1) Take some time between the end of your course and the certification exam to focus on studying for the exam. 2) Use this Preparation Guide to help focus on the requirements of the National Standard and your study time.

STEP 1: Review the Administrative information in front of this Preparation Guide.

- ✘ We have included some important information about the program and the steps of certification. Please take a few minutes and review these pages.

STEP 2: Review the Reading Reference Pages

The Reading Reference pages are arranged by Job Performance Requirements (JPRs), which are determined by the correlating NFPA standard.

- ✘ Read and study the pages listed in the written exam reading pages.
- ✘ By reading these pages, you are reading the same pages the test developer was when they were writing test questions.

STEP 3: Review the Skill Evaluation Sheets in this Certification Guide.

- ✘ Take note of the Instructions to the Candidate (grey boxes) on each Skill Sheet. These are the instructions that the evaluator will give to you in each station before you test.
- ✘ Skills sheet references take you back to the reference manual to explain the skill. You will be graded only on those items listed on the skill evaluation sheets. Use these in your practice and exam preparations.

STEP 4: Read & Review, Read & Review, Read & Review, and Practice, Practice, Practice!

- ✘ Don't practice until you do it right; practice until you can't do it wrong!

STEP 5: Get a good night's rest before the exam.

- ✘ You can be tired in any of three ways: Mentally, Physically, and Emotionally. If you are tired in any of these ways, it will make you tired in ALL of them.
- ✘ Save the party for after the exam...get a good night's rest....eat a good breakfast (if you test in the morning)...easy on the sugar and caffeine...and relax!

GOOD LUCK!

Note:

If you are exploring National Certification and haven't taken a course specifically for the level of certification you are seeking, we STRONGLY suggest that you start the process by taking a course. Under certain circumstances, you may challenge some certification exams. Persons who take a course first do much better on the exam. Contact the Kansas Fire & Rescue Training Institute for more information.

National Certification Application & Processes

- Application:** Applications are required before testing. Visit the KFRTI web page (<https://kupce.ku.edu/kufire-firefighter-certification>) to download the application.
- Registration for Exams:** Pre-registration is required. Go to the KFRTI online registration point to register and pay certification fee. (<https://www.enrole.com/kupce/jsp/index.jsp?categoryId=10019>)
- Certification Fees:** Certification fees must be paid before the exam date. Individuals are required to pay fees online when registering for an exam. An organization may request to be billed, this billing process requires a Purchase Order from that organization stating each candidate's name. To arrange billing, call the KFRTI at 1-866-804-8841. Billing cannot be processed online.
- Number of Attempts:** Candidates are allowed two attempts per test per application, and all testing must be completed within one year of the first testing activity. Additional testing requires a new application and fee.
- Picture I.D. Required:** A government issued photo I.D. is required at the test site.
- Accommodations:** The Kansas Fire and Rescue Training Institute as part of the University of Kansas adheres to the requirements of the Americans with Disabilities Act. Certification candidates requesting accommodations must submit the request in writing two (2) weeks in advanced of testing. The request must include a copy of the diagnosis by a qualified professional. Upon receipt of an accommodations request, the Kansas Fire and Rescue Training Institute will review the request, and then notify the requestor of the proposed accommodations.

What if I Fail the Exam?

Failure of any required component (not submitting a currently valid certification or licensure KBEMS number, less than 70% on the written exam or less than 100% of the skills exam) constitutes a failed attempt.

- a. Candidates may re-test on any component of the exam (written, or skills exams) and resubmit current and valid KBEMS medical credentials.
- b. Candidates must register to take a retest at another test site. No walk-in testing is allowed. To register for a retest, call the Institute at (toll free) 866-804-8841.
- c. Candidates are allowed two attempts at any portion of the exam. If a candidate fails any portion of the exam twice, a new application and fee is required for an additional two testing attempts.
- d. Any portion of the exam process successfully completed will remain valid for one calendar year from the date of their first testing action.
- e. The Institute strongly recommends that candidates study or seek additional training before attempting the exam for a third attempt.

Time to Complete Certification

Candidates have one year from the date of their first testing action to complete their certification. Retaking the written test, retesting skills, submitting verification forms, and all other requirements must be completed within that year. Failure to complete the certification process within the one year period will invalidate all previous testing.

Kansas Fire & Rescue Training Institute's Certification Requirements for Confined Space Rescue Technician II

Kansas Board of Emergency Medical Services Certification

All candidates are required to have a current certification for Emergency Medical Responder, Emergency Medical Technician, Advanced Emergency Medical Technician, or Paramedic issued by the Kansas Board of Emergency Medical Services (KBEMS). Certifications from other entities will be evaluated for reciprocity as per the KFRTI's Reciprocity policy.

Prerequisites

All candidates are required to have successfully completed the written and skills testing for NFPA 1006, Chapter 5 (Introduction to Technical Rescue), NFPA 1006, Chapter 7.1 (Confined Space Rescue Technician – Level I), and have a completed Confined Space Rescue Technician Level I & II Local Verification & Mask Fit form, prior to testing for NFPA 1006, Chapter 7.2 (Confined Space Rescue Technician – Level II) national certification. Certifications from other entities will be evaluated for reciprocity as per the KFRTI's Reciprocity policy.

Confined Space Rescue Technician II - Certification Exam

Written Exam:

- a. The Confined Space Rescue Technician II Written Exam includes 50 multiple choice and true/false questions.
- b. Candidates are allowed one (1) hour to complete the exam.
- c. Answer sheets and pencils are provided. "Bubble Sheet" answer sheets that candidates fill in small circles to indicate answer (a, b, c, d) as the correct answer are used.
- d. No cell phones, radios, or other electronic devices are allowed in the room while an exam is being administered (an exception for radios that allow "on-duty" personnel to receive alarms may be granted under special circumstances).
- e. A 70% minimum score is required to pass the written exam.

Skills Exam:

- a. The Skills Exam includes individual and team skills. Depending on the skill being tested, candidates may be tested individually, or as a member of a team.
- b. Teams of 4 to 6 candidates are formed for the purpose of skills testing. Individual candidates may not pre-select crews or make up crews of their own choosing. Teams (for testing purposes) are appointed by the Exam Coordinator at the test site.
- c. When testing a member of a team, evaluation includes both individual performance and performance as a member of the team.
- d. Skills Exams typically include 1 or 2 stations. Each station may include multiple skills. All Confined Space Rescue Technician II Skills Exams will include no fewer than two (2) skills total.
- e. Skills marked "Test Item Conducted by the Kansas Board of EMS" are waived with a current valid KBEMS licensure number.
- f. You will be given up to two attempts at each station. The two attempts per station make up your first overall attempt at the skills exam.
- g. Skills exams require 100% to pass in all stations.
- h. No same-day skills re-test allowed.

Project:

All candidates must successfully complete and submit to KFRTI a Confined Space Preplan as required by JPR 7.2.1 and listed at Performance Test Item 7-6, Preplan a Confined Space of this study guide. Candidates must complete and submit a satisfactory preplan within **one (1) calendar year** of the date of the written examination. Failure to do so will result in a failure. Candidates will be given one (1) year from the date of the written examination, and a maximum of two (2) attempts, to successfully complete this project.

***Confined Space Rescue Technician II - Written Exam
Study/Preparation Information and Materials***

Confined Space II Written Exam: 50 multiple choice and true/false questions.

Time allowed to take exam: One (1) hour.

Passing Score: 70% (or higher)

Answer sheets and pencils are provided. "Bubble Sheet" answer sheets that candidates fill in small circles to indicate answer (a, b, c, d) as the correct answer are used.

No cell phones, radios, or other electronic devices are allowed in the room while an exam is being administered (an exception for radios that allow "on-duty" personnel to receive alarms may be granted under special circumstances).

***Confined Space Rescue Technician II Skills Exam
Study/Preparation Information and Materials***

**Confined Space Rescue
Technician II Skills Exam:**

The Skills Exam includes individual and team skills. Depending on the skill being tested, candidates may be tested individually, or as a member of a team.

Teams of 4 to 6 candidates are formed for the purpose of skills testing. Individual candidates may not pre-select crews or make up crews of their own choosing. Teams (for testing purposes) are appointed by the Exam Coordinator at the test site.

When testing a member of a team, evaluation includes both individual performance and performance as a member of the team.

Skills Exams typically include 1 or 2 stations. Each station may include multiple skills. All Confined Space Rescue Technician II Skills Exams will include two (2) skills total. Additionally, all candidates must successfully complete and submit a Confined Space Preplan as required by JPR 7.2.1 and listed at Performance Test Item 7-6, Preplan a Confined Space of this study guide.

Time allowed to take exam:

The overall exam is not timed; however, individual skills and/or stations may include a maximum/minimum time.

Passing Score:

Skills exams require 100% on all stations and skills. Up to two attempts will be given for each skill and/or station being tested. These two attempts make up your first attempt at the skills exam.

No cell phones, radios, or other electronic devices are allowed in the room while an exam is being administered (an exception for radios that allow “on-duty” personnel to receive alarms may be granted under special circumstances).

National Standard test is based on:

NFPA 1006 Standard for Technical Rescuer Professional Qualifications, 2013 Edition

Confined Space Rescue Technician: Level II Skill Evaluation Sheets

These Skills Evaluation Sheets are the exact grading sheets that evaluators use during the Skills Test. These sheets have been edited for the explicit use of grading skills and should not be used to learn the skills.

These Skill Evaluation Sheets have been included in this Preparation Guide for the purpose of guiding you as final preparations are made (and practice performed) for the Certification Exam.

Grading for the Skills Evaluation requires 100% of the steps listed on these sheets be performed. You will not be evaluated on steps of the skills that are not listed on these evaluation sheets.

Confined Space Rescue Technician Level II: Preplan a Confined Space

Item 7-8

Additional Project

Reference: NFPA 1006, 2013 Edition, Chapter 7, Job Performance Requirement 7.2.1
CMC Rescue, Confined Space Entry and Rescue Manual, Revised 2nd Edition.

Evaluator Equipment Required: Blank Packet for Confined Space Preincident Plan

Candidate Equipment Required: Helmet, Boots, Gloves, and other PPE appropriate for the environment, Actual Confined Space, Monitoring Equipment, Measuring Equipment, Drawing Equipment & Blank Forms.

Evaluator's Instructions to Candidates

At this station, as a take home project, you will preplan a confined space in your jurisdiction such that a safe, standard approach is used during a confined space rescue emergency. You must recognize, identify, and document all hazards in the space. You must identify and document all isolation methods in the space. You must identify and document all accesses to the location of the entry openings to the space. You must identify, categorize, and document all openings to the space. You must describe and document all internal configurations of the space. You must identify and document all special resources that may be required to conduct a rescue from the space.

You must complete this station **one (1) calendar year** from the date of the first written portion of Confined Space Rescue Technician Level 2 certification test.

To pass this station, you must successfully complete 100% of the steps.

Evaluator Equipment Required: Confined space. Ropes, pulleys, carabineers, rope grab devices (prusiks) webbing, and other auxiliary rope rescue equipment. SCBA or SAR system as appropriate. Appropriate victim evacuation litter(s).

Candidate Equipment Required: Helmet, Boots, and Gloves

Evaluator's Instructions to Candidates

In this station you will assess a confined space incident. You will be provided with a preplan of the space or size-up information as well as information from technical resources, monitoring equipment, and necessary PPE to conduct such an assessment. You must identify general area and site-specific hazards. You must interview witnesses, victims, and bystanders. You must initiate and maintain monitoring of the space. You must determine (as best the situation allows) the number, condition, and location(s) of the victim(s). You must conduct a risk-benefit analysis. You must identify and control means of ingress and egress for rescuers and victims. You must determine rescue systems to be used for victim removal. Finally, you must determine emergency means of retrieval for rescue entrants

The skill will end when you state or indicate to the evaluator that you have completed all identified steps.

This is NOT a timed event, but must be successfully completed in a time consistent with fire ground operations.

To pass this station you must successfully complete 100% of the steps.

Evaluator Equipment Required: Actual Confined Space, Monitoring Equipment, Measuring Equipment, Drawing Equipment & Blank Forms.

Candidate Equipment Required: Helmet, Boots, and Gloves

Evaluator's Instructions to Candidates

In this station you will be required to control the hazards in a confined space rescue incident. You must establish and control the incident control zones (hot, warm, cold); ensure that rescuers are protected from:

- Possible exposure to hazardous materials and atmospheres;
- All forms of harmful energy releases;
- All physical hazards.

You must also ensure that victims are protected from any further harm.

The skill will end when you state or indicate to the evaluator that you have completed all identified steps.

This is NOT a timed event, but must be successfully completed in a time consistent with fire ground operations.

To pass this station you must successfully complete 100% of the steps.

Confined Space Rescue Technician, Levels I & II Local Verification & Mask Fit Form

NFPA 1006 – 2013

Candidate's Name: _____ Date of Birth: _____

Local Verification Requirements

1. 29 CFR 1910.134, Mask Fit Documentation:

The candidate has been successfully fitted to his or her Self-Contained Breathing Apparatus (SCBA) Mask in compliance with 29 CFR 1910.134 within the last twelve (12) calendar months.

2. NFPA 1006 – 2013, JPR 4.2, Medical Training, and Kansas Fire & Rescue Training Institute, Technical Rescue Minimum Medical Requirements:

The candidate must be a currently registered Kansas Emergency Medical Responder, Emergency Medical Technician, Advanced Emergency Medical Technician, or Paramedic.

These requirements are developed and have been validated at the local level per departmental protocol. Documentation of the requirements contained above are subject to verification by KF&RTI in written form and/or a hard copy of the document(s).

I have reviewed the candidate's file and affirm that the candidate identified above has met the requirements listed in paragraphs 1 and 2 above. All requirements have been successfully conducted and completed per local department protocol. All information listed above can be validated by a written and/or hard copy of the documents maintained by the department.
